4. Executive Summary of the effort –

**Trooper Ching is nominated for his outstanding efforts in traffic law enforcement. From January through November 2007, Trooper Ching has made 122 DUI arrests in Clark County. Twenty-three of those arrests came in just 18 shifts while serving as a member of the Clark County WSP DUI enforcement team. In 2006, Trooper Ching made a total of 130 DUI arrests in Clark County. Each one of these arrests signify at least one impaired driver removed from the road, and potentially several other persons who made it safely to their destination on the day of the arrest. During 2006-2007, Trooper Ching, a six-year member of the Washington State Patrol, also dedicated himself to speed enforcement – 1307 violators with 75% enforcement, 199 aggressive driving arrests, and 69 drug arrests. Each one of these numbers represents either education or enforcement activity specifically intended to make our community safer. Trooper Ching also exemplifies professionalism in law enforcement by the quality of the reports he submits for all of his enforcement activity. Consistently, Trooper Ching prepares complete and comprehensive reports, which allow for prompt, fair and aggressive prosecution of all cases he generates, thereby holding violators accountable for their actions. Trooper Ching also serves as a technical collision investigator for the Washington State Patrol. In this role, Trooper Ching spends a significant amount of time investigating major collisions to document the events that occurred. Despite the amount of time spent in this capacity, Trooper Ching still finds sufficient time to dedicate to stopping collisions from occurring in the first place by removing impaired drivers from the roadway.**
